Governor Musgrove Praises Unipres Groundbreaking

Forest, MS – Governor Ronnie Musgrove took part in a groundbreaking today for a Unipres Southeast USA, Inc., facility in Forest, Mississippi. The 150,000 square foot facility will supply body stampings for the Nissan plant in Canton.

“We are very pleased to welcome Unipres to Forest,” Musgrove said. “The continued impact of the Nissan facility on Mississippi continues to be felt. We are going to keep the momentum going in our state, because we know we can compete with anyone, anytime, anywhere.”

In November 2001, Unipres announced it would be locating its facility in Forest.

“Great things are happening in Mississippi, and we can continue on this track with strong investments in workforce training and economic development,” said Musgrove. “Now is not the time to cut spending on these very important programs.”
